WELCOME TO GROW AND BLOOM STUDIOS...

Grow and Bloom Studios is an independent pottery and illustration studio founded by artist and illustrator Kate Aimers. She runs her business from her Cornwall based studio at Krowji arts space.

She combines her illustrative visual language with the meditative art of pottery to create decorative and functional wares to be treasured and used everyday. She also takes on illustrative commissions alongside selling her work at markets and online.

Alongside her ceramic range you can find original illustrative art prints, greetings cards, stationery and many other illustrated goods, made to be used and loved daily.

THE SLOW DOWN COLLECTION

A new and very exciting collection I am debuting at Top Drawer 2025. Inspired from my sketchbook drawings capturing small moments from my day, The Slow Down Collection has been brought to life! Using Cornish stoneware clay, hand thrown forms with added 3D embellishments and gold lustre details.

The collection is centered around a more sculptural form, slower techniques but with it a real sense that each one is its own unique piece. I have created a collection of bud vases and mugs which when used and woven in to your daily routines act as reminders to appreciate the little things in life.
